# Ex. 6 - Personal Privacy

PFC DRAFT Screening Level Calculations WA.docx  
Fish Program Call Fish Study Slides 08-04-2017.ppt  
Fish Call Aug 2017 WA.pptx

Adding one more attachment from Dave McBride, WA

Call-in number 1-866-299-3188, access code { Ex. 6 - Personal Privacy }

Who's on the Call?

New York - Perfluorinated compounds: Fish analysis and current recommendations (Wayne Richter and Agnes Mukasa/Henry Spliethoff)

Washington - Hanford Reach fish advisory; provisional PFOS/PFOA screening level (Dave McBride) File attached

July 2017 International Mercury Conference (All)

Fish Tissue Repository Update (Sam Fontenelle)

Scope of Fish Studies (Leanne Stahl) Slides attached

Volume 4 Questions (Roselyn Thalathara, Sharon Frey):

- Which health behavior theories are states/tribes considering when planning fish consumption advisories?
- What is the main overarching program goal for your state's/tribe's fish advisory? Is this something that varies regionally or could this be generalized?
- Which states or tribes have communication plans for their fish advisory program? Is this something most states or tribes have written out in document form or are communication plans carried out more informally?
- Which states/tribes have a communication plan for the fish advisory program they can share with me?
